

The SQL file containing all the commands will be submitted alongside this document.

1.1: Total spent per category

```
SELECT category, SUM(amount) AS sum  
FROM expenses  
GROUP BY category;
```

1.2: Average expense per category

```
SELECT category, AVG(amount) AS average  
FROM expenses  
GROUP BY category;
```

Bonus question: Top 3 categories by spending

```
SELECT category, amount AS top_three  
FROM expenses  
ORDER BY amount DESC  
LIMIT 3;
```
